

Simac ICT Belgium named Gold Partner by Fortinet

Simac ICT Belgium has been awarded the Gold Partner status by Fortinet. This accreditation is proof of the strong relationship between the two companies and underlines the reputation of Simac ICT Belgium as a security integrator.

Simac ICT Belgium has been working with Fortinet for the last three years and has a number of high-profile customers who are using the Fortinet product range. "Security services is one of the focal points of Simac's Integration business unit," says Simac Director Johan Diels. "We position ourselves as a one-stop-shop when it comes to delivering security solutions to our customer base." In order to deliver all possible security solutions to its customer base, Simac ICT Belgium works with a limited number of security vendors, that offer complementary products and services.

The market for information security products and services is one of the biggest growth areas in IT, with a growth of over 10% every year. As the number and sophistication of threats increases, the defense companies have to set up needs to be bolstered too.

"What differentiates Simac ICT Belgium from other security integrators is the full breadth of security solutions we offer," claims Johan Diels. "Through our experts, we deliver advisory and architectural services, auditing, penetration testing, vulnerability scanning and implementation of security solutions. We also specialize in GDPR, with a number of accredited Data Protection Offers, and act as a Security Operations Center, a Network Operations Center and a Managed Security Services Provider. Our experts have a broad experience in all of these domains, which is a huge added value to our customers."

"Over the years we have come to experience Simac ICT Belgium as a strong partner of ours in the Belgian market," says Frederic Janssen, Channel Manager Belux at Fortinet. "Reaching the level of Gold Partner demonstrates their commitment to our products and the good coverage they have throughout different industries. We look forward to extending our relationship in the future."
